

Technical support to the implementation
and management of ENI CBC programmes

TESIM Thematic event P2P

Key messages

Online webinar, April 8th , 2020

A project funded by the European Union

Implemented by a consortium led by

Key messages from the JOPs's and projects analysis

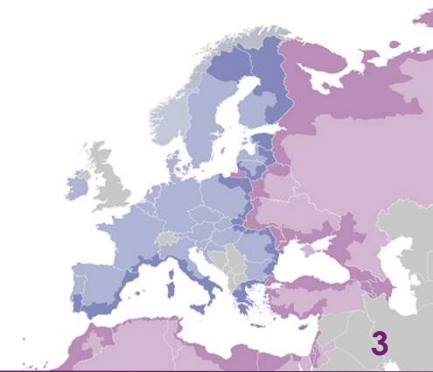

Contribution to post-2020 programming period:

- ❑ Move up a notch (from Choices to Opportunities, from Opportunities to Inclusion)
- ❑ **TO4** seems the most relevant to infuse knowledge into the new contribution to the social pillar, **TO3** has potentially more limited impact on this specific topic
- ❑ Project with **cross-cutting dimension** may provide relevant inputs
- ❑ Impact of **covid pandemic**? Relevance of healthcare measures and socio-economic recovery?

Key messages and challenges from the survey and debate on indicators

- ❑ **Mild dissatisfaction** with the indicators in use for the 2014-2020 programming period (limited sampling of survey)
- ❑ Result and output indicators – **Key challenges:**
 - ❑ Overall **contribution** to Cooperation Programmes' strategies
 - ❑ Focus on **common indicators**
 - ❑ **Quantitative** (Annex I ERDF draft Reg) vs. **qualitative** (Interreg specific)
 - ❑ Targeting can be hard task – only targeting?
- ❑ Use of **SDG-alike indicators** an option?

Key messages from projects Culture Open and Med Town

- ❑ Social inclusion achieved through **empowerment**
- ❑ Focus on **qualitative actions**, instead of quantitative: very hard to measure social cohesion/inclusion with quantitative tools/indicators (measure changes in people's behaviours and perceptions, informing policy makers)
- ❑ Meeting target group needs on **all project levels** (communication, facilitates P2P, transparency and dissemination, especially vis-à-vis policy makers)
