

TESIM

Technical support to the implementation
and management of ENI CBC programmes

Closing the projects

26 March 2021

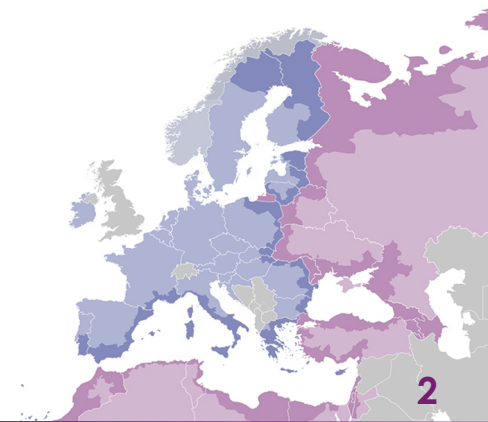

A project funded by the European Union

Implemented by a consortium led by

Project closure is the **last phase** in
the project **implementation**
process...

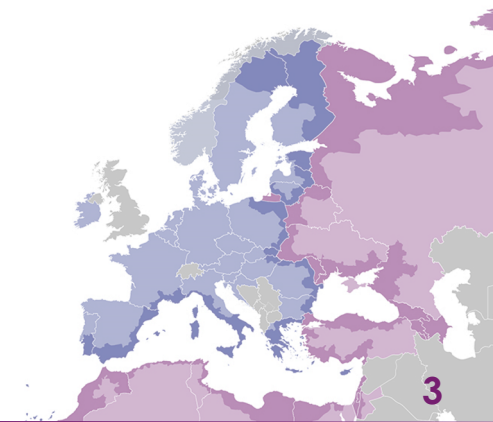

• February 2021

4815 applications received
of them

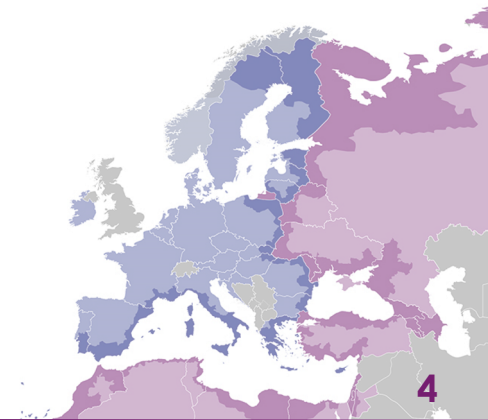

884 selected for financing

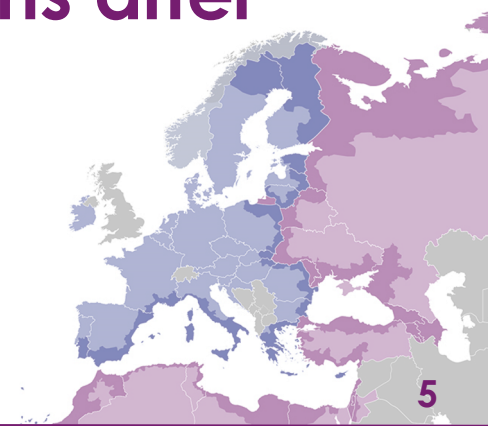

A lot of
projects to
be closed in
the upcoming
years!

- **Final report similar, but not the same as regular**
- **Preparation/communication between the partners**
- **Document/record keeping arrangements + durability**
- **Ensuring free access to outputs, where applicable**

- Programme can be closed only when all projects are closed (Art.19)!
- Necessary bookkeeping records on the project level are available
- Making sure the beneficiaries know their obligations after the project has ended
- Giving clear instructions/recommendations about Document/record keeping

What can go wrong when project is already closed?

Document keeping

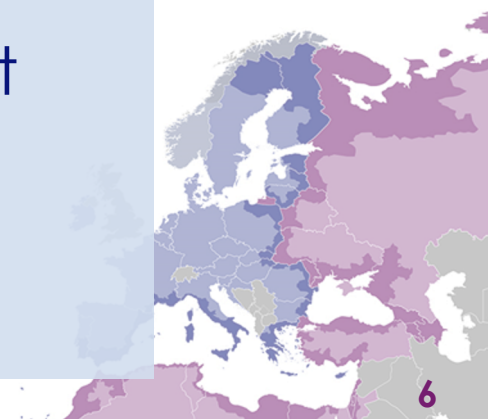

- **Five years!**
From the date of payment of the balance for the programme

Durability

- Infrastructure - no substantial changes that would undermine original objectives (**five years** of the **project closure**)

Free access

- Where relevant, outputs/results **should** **be available to public** also after project closure.

Let's hear from the
programmes who already
are closing the **projects!**
