

# TESIM

Technical support to the implementation  
and management of ENI CBC programmes

## Harmonised implementation tools (HIT) and joint electronic monitoring system (JEMS):

## Info-session for Interreg NEXT programmes

14 December 2021

A project funded by the European Union

Implemented by a consortium led by

 **particip**

## Rationale

Throughout 2021, several meetings devoted to the development of harmonised implementation tools (HIT) for the programming period 2021-2027 have taken place. TESIM has followed them closely and has contributed to the drafting of standard templates, such as the one for the subsidy contract and the partnership agreement, ensuring that neighbourhood CBC specificities were taken into account. Time to share with the community the full range of available tools!

Moreover, a significant number of Interreg NEXT programmes are considering to use JEMS as their monitoring system. This technical meeting will be an opportunity for them to directly address questions to Interact colleagues about the state of play in the development of JEMS and the next steps towards the use of the system by individual programmes.

## Agenda

*Please note that time in the agenda is CET!*

09:00 - 09:15	<i>Welcome and introduction</i>
09:15 – 09:40	<i>HIT Tools and JEMS</i>
	<ul style="list-style-type: none"> <li>HIT Tools as a basis for JMS - Key documents in HIT package in the context of NEXT programmes. <i>Presentation by TESIM</i></li> <li>Q/A session</li> </ul>
09:40 – 10:40	<i>JEMS – How it can work for NEXT programmes?</i>
	<ul style="list-style-type: none"> <li>State of play in JEMS development <i>Presentation by Interact</i></li> <li>JEMS modules to be developed and key NEXT specificities. <i>Presentation and discussion with Interact</i></li> <li>Q/A session</li> </ul>
10:40 – 11:00	<i>Closure of the meeting</i>
